Delivering Excellence

Automation and Optimization

Creative, tailored solutions for optimization of business processes, robotic process automation, and customer relationship management services.

Cloud and Infrastructure

Custom solutions for cloud readiness analysis, DevOps, cloud migration, containerization, middleware and network engineering, and mainframe services.

Consulting and Advisory Services

Services for strategic planning, alternative analysis, enterprise architecture, and program management.

Our Alliances

- | | | | |
|-----------|-----------|-----------|------------|
| AWS | Flux | Kong | OutSystems |
| Appian | ForgeRock | Microsoft | Saviynt |
| Carahsoft | IBM | Okta | TransUnion |

Digital Transformation

Technology agnostic, SAFE implementations to develop new and modernize existing enterprise systems ranging from mobile to mainframe.

Cybersecurity

Cyber services specializing in FISMA, NIST, FedRAMP and IRS Pub 1075 requirements for all risk level environments.

Identity, Credential, Access Management

Enterprise security for ICAM, identity federation, audit, and compliance. Deep experience implementing in multi-datacenter and FedRAMP cloud environments.
