## WHAT WE DO

### CYBERSECURITY

Specializing in FISMA, NIST, FedRAMP, and IRS compliance. We provide audit support for all risk-level environments and excel in Threat Detection, Response, and Zero Trust.

### IDENTITY, CREDENTIAL, ACCESS MANAGEMENT

Enterprise security for ICAM, Consumer Identity and Access Management, Privileged Access Management, and Zero Trust architecture. For example, JSL developed and maintains an authentication system for 85 million user accounts and 190 million annual authentications.

### SYSTEM & APPLICATION DEVELOPMENT

Specializing in system development, integration, application development, backend infrastructure, modernization, and cloud and IT infrastructure. JSL stays updated on cloud and IT infrastructure trends to guide clients to informed technology adoption decisions.

### IT SUPPORT SERVICES

JSL's IT services enable customers to focus on their core competencies, leverage our professionals' expertise, enhance operational efficiency, and lower costs. JSL also manages and sustains existing platforms.

### LOW-CODE DEVELOPMENT

JSL offers low-code, full-custom development, and hybrid solutions using both approaches. Our team analyzes immediate and long-term needs to determine the best development approach and platform.

### CONSULTING & ADVISORY SERVICES

JSL provides consulting services including technology modernization, business standards, program management, and communications.

## HOW WE DO IT

At JSL, we combine deep industry knowledge with advanced technology to develop tailored solutions. JSL also draws on technology partnerships to provide the best and most cost-effective solutions for our clients.
