

# Jazz Solutions Inc.

Protecting data and information systems  
from ever-evolving threats

**Jazz Solutions, Inc. (JSL) stands at the forefront of cybersecurity defense for federal and civilian agencies.**

By integrating the latest technology with robust strategies, JSL proactively protects information, ensuring the confidentiality, integrity, and availability of critical data systems.

Our expertise spans system security, risk management, compliance, and cybersecurity, making us a holistic provider of modernized cybersecurity solutions.

## THREAT DETECTION & RESPONSE

The JSL cybersecurity team has the knowledge, skills, and tools to identify threats, assess impacts, and provide real-world solutions to ensure customer systems remain secure.

## VULNERABILITY RISK MANAGEMENT

JSL develops innovative approaches to help customers quickly process, analyze, evaluate, and remediate their most critical vulnerabilities

## SYSTEM SECURITY

JSL's experts apply industry best practices to secure your systems from unauthorized access and hacking attempts, keeping your data safe from internal and external threats.

## COMPLIANCE & AUDIT SUPPORT

JSL retains subject matter experts disciplined in audit preparedness and response including NIST, OIG, A-123, ISO 27000, IRS PUB 1075, CMCC and more. Our professionals hold top certifications, such as CISSP, CCSP, Certified Ethical Hacker, Certified Information Systems Auditor, and Certified Information Security Manager, to name a few.

**83% staff hold IT & PM certifications**

**40+ years of experience in cybersecurity**

**30+ current contracts/20 JSL Prime**

**20+ states with JSL Staff**

## RECENT PROJECTS

### Federal Student Aid (FSA) Rational Project

JSL plays a pivotal role in safeguarding FSA's IT ecosystem, defending our client's systems in quarterly audits and ensuring FISMA compliance and secure daily operations. Authoring and updating security documents like System Security Plans, Incident Response, and Disaster Recovery Plans underscore our commitment to robust cybersecurity frameworks.

### FSA Federal Taxpayer Information Module Services

JSL led the secure integration of critical IRS tax data within the existing Federal Student Aid systems. The team created a security system that incorporates the highwater mark of security controls within IRS PUB 1075, NIST 800-53 Rev. 5, and FEDRAMP. This critical project successfully obtained the U.S. Department of Education's Authorization to Operate (ATO) on the first submittal, assuring FSA and the IRS that JSL's solution met or exceeded the latest security standards.
